

GETTING TOGETHER

Purpose of Visit of Knoxville Trade Trip Members Is To Cement Business Relations

Business Men of Knoxville Want to Know More About Conditions Here, and Desire People Here to Know More About Knoxville as a Manufacturing and Jobbing Center.

Back of the white hats, the striped umbrellas, the music, the fun and good-fellowship of the Knoxville Trade Trip, there is a very serious purpose. This Trade Trip has a meaning, and that meaning is illustrative of the business spirit of Knoxville.

For, be it known, that this is "Prosperity Year in Knoxville"—her mills and factories are running, and the wheels of commerce are humming. Knoxville is stirred in every pulse and fibre as she has never been stirred before—with a new spirit of enterprise, of push and purpose that is built upon the solid rock foundation of confidence—confidence in her own future; confidence in the loyalty of her people and aggressiveness of her progressive business men and institutions.

Wm. H. Crouch, leader of the U. of T. Band, which is to visit here.

It is in the spirit of this new prosperity that this First Trade Trip is being made, and it is far from a selfish spirit, for Knoxville is not coming to sell, but to see and to buy!

In her new prosperity she must look beyond her own doors for new material.

Knoxville wants to extend to the people of her sister towns and cities the "glad hand," wants to know them better, and extends to them an invitation to grow as she grows. Knoxville wants us to profit by her prosperity.

There will be a result to this trip that ought to be of special interest to this town. Being, as it is, in itself an example of organization and efficiency, the trip ought to stimulate greater interest in our local commercial organization and in greater commercial activity. Then, too, the visit of the Knoxville Trade Trip will offer to our local boosters an opportunity to do some boosting of their own game. The Special will carry representatives of both of Knoxville's big daily papers, newspapers that are read far and wide. The impression they gather of the towns visited, and which will be gathered by the other members of the party will have a far-reaching effect and untold good should result.

Let us go out and meet the "special" in a spirit which will animate them; in a spirit of wanting to get closer together and of cooperation and thereby both sides will be benefited.
